Automated checks run on every refresh

Check	Rows	Status
CSAT scores between 1 and 5	0	PASS
Every ticket has a unique ID	0	PASS
Every ticket has a valid created time	0	PASS
Every ticket is assigned to a known agent	0	PASS
No contacts dated outside the reporting year	0	PASS
Orders recorded for every day	0	PASS
Tickets still unclassified after the subject rules	512	WARN
Tickets with a clock error (resolved before created)	40	WARN

New agents leave 3 times more tickets untagged

What was fixed before analysis

Table	Issue	Rows	Action
tickets	30 different tag spellings for 8 contact reasons	65577	Mapped to standard contact reasons
tickets	Created time in three formats (ISO, DD/MM/YYYY, epoch ms)	21959	Parsed to one timestamp type
tickets	CSAT stored as text ('4.0', 'N/A', blank)	18381	Converted to whole numbers 1 to 5; blanks mean no survey response
tickets	Untagged or tagged 'other'	7168	Classified from the subject line with keyword rules
tickets	Duplicate rows from overlapping exports	873	Removed
tickets	Untagged with a vague subject ('Help', 'Hi')	512	Left as Unclassified and flagged for agent review
tickets	Resolved before it was created (clock error)	40	Resolution time removed and flagged
